- Custom Products
- Strong Return on Infrastructure Investment

Network Infrastructure Expertise

Every data center has a unique set of network priorities, from consolidation and cost control to quick deployment and zero downtime. You can count on Leviton to ensure your data center's infrastructure meets your specific requirements. We have experience serving all types of customers, including telecom providers, Fortune 100 e-commerce companies, universities, and high-security government installations.

Leviton has infrastructure experts to help with everything from day-to-day challenges to long-term planning.

Our data center designers and engineers have extensive experience with the most popular active equipment, network topologies, and transmission methods. Many of them are active members on standards bodies that define future data center networks, including standards for 25, 40, 100, and 400 gigabit networks.

Data Center Technology Alliances

Leviton works closely with the biggest names in networking technology to create scalable, high-density data center networks. When combined with the latest data center switches from Arista, Brocade, Cisco, and Extreme Networks, our cable assemblies and connectivity give you extra design flexibility for your equipment architecture.

Unrivalled Quality, Service, and Support

With service and support from initial planning through post-installation, we have you covered at every point in the life of your data center.

Responsive Customer Service

Talk to one of our many knowledgeable and friendly customer service reps to answer questions about your purchase, get you a quote on a product, or direct you to the right data center specialist or distributor in your area.

Knowledgeable Technical Support

Our technical service reps can assist with data center products and network troubleshooting, whether over the phone or through our online live chat. More than 90% of tech support issues are resolved on the first call.

Extended Warranty

Leviton systems are backed by a limited extended warranty when installed and tested by a Leviton Certified Contractor. Our warranties have covered more than 1 million copper and fiber connections in the past two years.

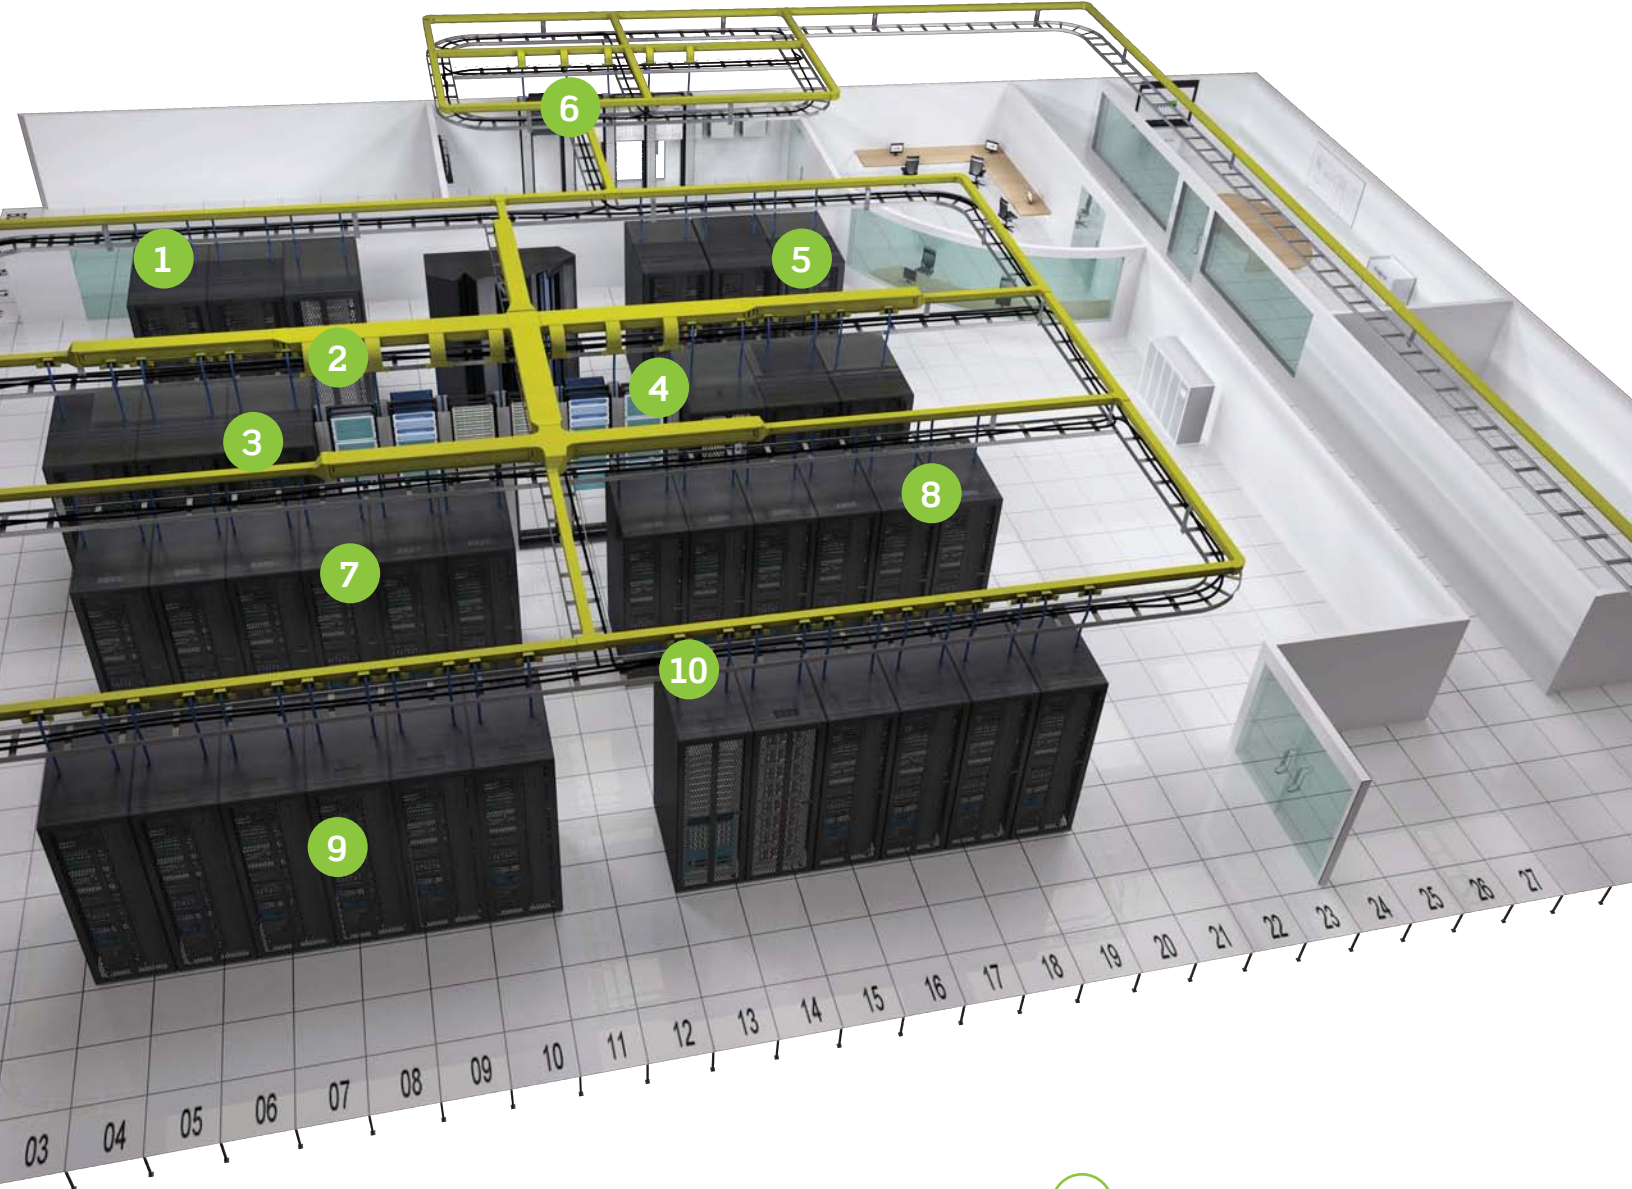

Global Reach

Whether your data center is in California, Korea, Dubai, or Colombia, you'll get the same quality and service. Our team of Global Account Managers will work with customer service to deliver the products and support you need.

1

e2XHD Snap-In Cassette Patching System

Fast deployment and simple maintenance.

2

HDX Fiber Distribution System

Used in MDA to consolidate patching and reduce footprint, freeing up valuable space.

3

40/100G MTP® Systems

Ideal multimode and single-mode migration path to 40/100/200/400 GbE speeds.

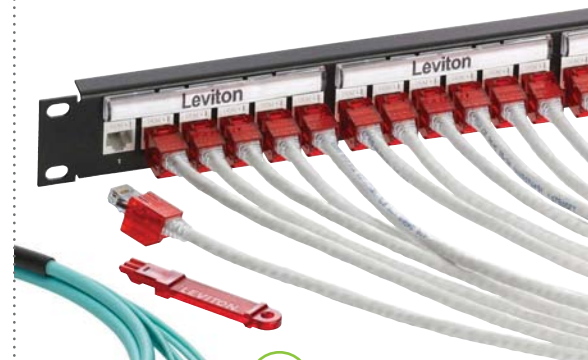

4 Cable Management

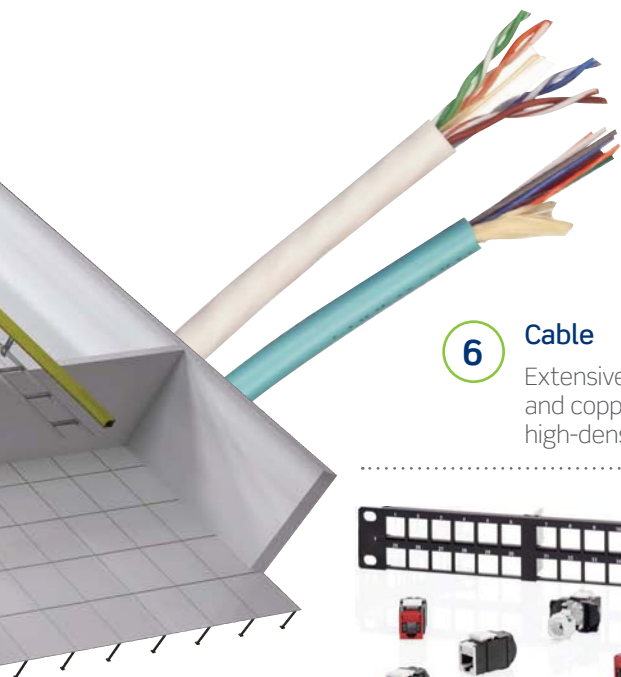

Vertical, horizontal, and overhead cable management with standard equipment racks and cabinets*.

* Product availability varies by region. Contact your local sales representative for details..

5 Secure Connectivity

Physical port security with copper RJ and fiber LC assemblies.

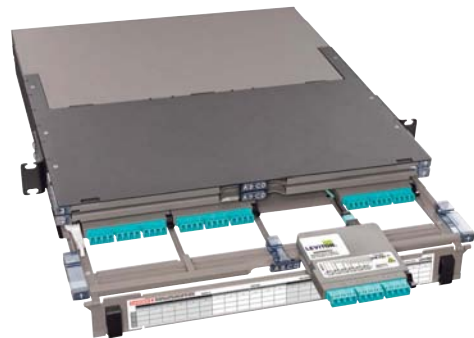

6 Cable

Extensive selection of fiber optic and copper cable to support high-density applications.

7 Cat 6A Premium UTP System

Best-in-class component-rated UTP system with crosstalk prevention technology.

9 Fiber Optic Systems, Enclosures, and Accessories

Ultra high-density enclosures can be custom configured with cassettes, adapter plates, and pre-terminated solutions.

Data Center Solutions

Leviton technologies cover every area of the data center – from the entrance room and computer room to the telecommunications room (TR) and support offices.

8 Pre-terminated Copper & Fiber Trunks

Provide backbone connections between entrance facility, MDA/Core, SAN, and HDA.

10 Power Distribution Units*

Provide reliable power distribution into racks and cabinets. Choose from horizontal, vertical, or rack-mounted units.

* Product availability varies by region. Contact your local sales representative for details.

Custom Products

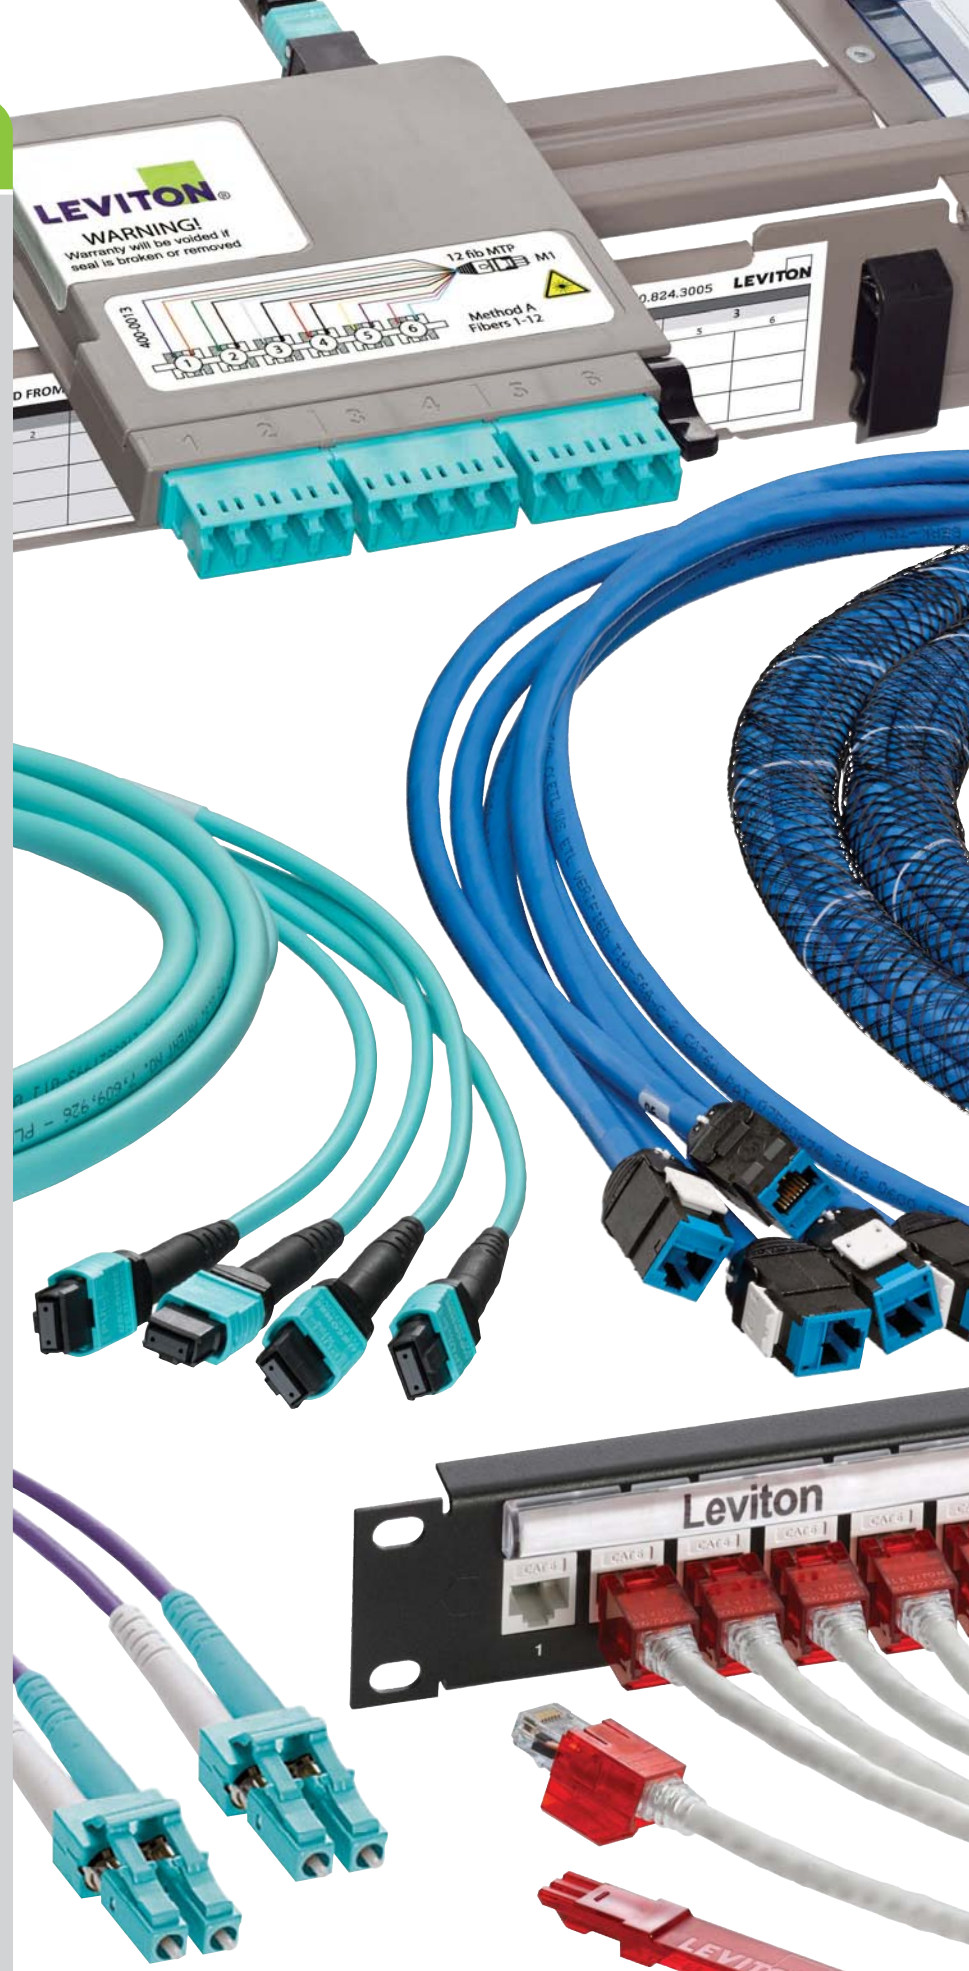

We've made building the exact data center product or system quicker and easier than ever with our **Make-To-Order Program**. The program offers custom-configurable options for enclosures, cassettes, cable assemblies, and PDUs. Leviton factories in the US and UK can build and ship these products in some of the fastest turnaround times in the industry.

Selecting a custom solution is easy with our innovative online configurators. Choose from a wealth of options to create the ideal solution for your needs. Then take the resulting model number or part number and submit your quote request to your local Leviton distributor. To see a full range of custom-configurable products, visit Leviton.com/configurator.

NEED A UNIQUE SOLUTION?

Our engineers will work with you to design and manufacture a solution that meets your specific application needs.

For questions or assistance configuring your products, please call Network Solutions Support at **+1.425.486.2222**.

Strong Return on Infrastructure Investment

When planning for data center upgrades, expansions, or new construction, data center managers are often challenged to keep capital and operating expenditures in check. We can help you justify data center investments with solutions that deliver a significant and measurable ROii savings.

SAVE SPACE IN
YOUR MDA

345%
Savings

Cost Savings with the HDX Fiber Distribution System

Dollars saved using HDX Fiber Distribution System vs. traditional cabinets.

150 Server Cabinet Example

	Traditional Racks in MDA	Leviton HDX in MDA
# of Frames / Cabinets	20	12
Square Footage	213	48
Total	\$128,040	\$28,800
\$ Savings		\$99,240
% Savings		345%

Data Center cost per sq ft. \$50/month

Calculate your savings with the ROii Calculator at apps.leviton.com/hdxcalculator.

REDUCE BUILDING
RENOVATIONS

63%
Savings

Cost Savings with the Overhead Infrastructure Platform

Dollars saved using Overhead Infrastructure Platform vs. traditional ladder and basket systems

	Suspended Basket	Leviton Overhead Infrastructure Platform
Labor	\$27,248	\$2,880
Material	\$3,850	\$8,778
Total	\$31,098	\$11,658
\$ Savings		\$19,440
% Savings		63%

Today's networks must be fast and reliable, with the flexibility to handle ever-increasing data demands. Leviton can help expand your network possibilities and prepare you for the future. Our end-to-end cabling systems feature robust construction that reduces downtime, and performance that exceeds standards. We offer quick-ship make-to-order solutions from our US and UK factories. We even invent new products for customers when the product they need is not available. All of this adds up to the **highest return on infrastructure investment.**
